:
: I just mounted a on-glass scanner antenna from Radio Shack
: and it *sucks* ! Can anyone tell me how to get it off
: the windows? I was thinking about using a freon agent,
: but I'm afraid of cracking the glass. Any info would
: sure be helpful....

I assume that it is glued on. Getting it off will depend on the
type of glue. If it is epoxy, it is not easy. However, I think
that acetone will slowly break it down. Also, heat may soften
it enough to remove the mount. If it super-glue, then acetone
will dissolve the glue fairly quickly.
